

COVID-19 Precautions

Thank you for your interest in SBCA! We take the health and safety of our students, families, teachers, and staff seriously and are committed to maintaining a healthy, safe environment conducive to learning.

As of August 2020, we have implemented the following procedures:

- Professional-grade UVC air purifiers in each classroom.
- Enhanced cleaning procedures throughout the school day, at the end of each school day, and weekly by teachers, staff, and professional sanitation services.
- Playgrounds sanitized between each class.
- In an effort to limit student exposure to only their classmates and teachers, students do not intermingle with other students outside of their class while at school.
- Enhanced hygiene procedures (such as increased hand-washing/sanitizing, individual snacks, individual “high-touch” supplies, thorough cleaning of shared toys/supplies, etc).
- Students, teachers, & staff undergo temperature checks prior to entering the building each morning.
- Students, families, teachers, & staff complete daily health screenings prior to school.
- Only students, teachers, and staff are permitted inside classrooms during school hours. Building access is limited during school day.
- Teachers & staff are encouraged to wear masks when social distancing is not possible.
- While not required, children age 2 and up are welcome to wear masks.
